Address:

Price: 800.00 \$

Purchased this pool through a buy/sell/trade page and it is too big for the area of our yard we bought it for. Pool box was ripped when the pool was opened to measure but it has never been set up or used and all parts are included. Filter, pump, ladder, pool cover and ground cover included. Not looking to scam or price gouge, simply wanting to get back what I paid.
